Course Library

Access a world of learning opportunities

Keep employee skills relevant and compliant

How critical is continuous upskilling? The World Economic Forum indicates that a third of the desired core skill sets of most occupations will change by 2020.

Fortunately, employees and employers are more willing than ever before to work together to ensure upskilling occurs, with 74% of employees believing it's their own responsibility to take an interest in upskilling[1].

How can employers help? By providing easy access to learning in all its forms. ELMO Course Library offers hundreds of courses covering a range of topics including compliance, soft skills and productivity training. With ELMO's regular updates to course content, it helps ensure that the skills of your employees remain sharp, now and into the future.

An Ever-Expanding Library

ELMO's Course Library offers over 400 courses with a wide range of content across a wide range of topics – all built with best practice learning principles.

Customised to your Organisation

Copy and tailor content to your needs with easy authoring tools built with "what-you-see-is-what-you-get" editing.

Deep Integration with ELMO Learning Management

Quickly and easily publish courses to ELMO Learning Management with detailed response tracking for detailed reporting.

Key Benefits

ELMO's Course Library offers over 400 courses covering everything from soft skills to compliance-related issues. With a growing library, new and updated courses are released every month so there is always new content to discover. The course content is also kept up-to-date with Legislative changes to ensure continued compliance.

Courses are built by ELMO's team of instructional designers with industry best-practice approaches to eLearning, ensuring more engaging course design and content.

While most off-the-shelf training has limited scope for customisation, courses from the ELMO Course Library allow you to customise courses to fit your organisation's needs, including the ability to change content, images and branding.

Great alone, better together!

Harness additional benefits from ELMO Course Library by adding these complementary modules:

Onboarding
Ensure new hires are compliant and have all the skills required to be productive by allocating courses from ELMO's Course Library and creating a personalised development plan prior to commencing the new role.

Learning Management
Manage the training and compliance needs across the entire organisation by providing access to freshly created courses, pre-built courses, and a range of comprehensive reporting tools.

Course Builder
Simplify the creation of bespoke online learning content, which can be branded with your organisation's branding, colours, logos and images. With no coding skills required and a range of page templates, you can easily create engaging interactive online courses.
